

2500 Pickwick

Built 1790 as a row of eight mill worker's houses. Remodeled in 1950 by removing six of the houses and combining two into one house and adding a one-bedroom rental house in the rear.

The walls of the house are three-feet thick and the stone was quarried from the mountain behind the house.

There are SEVEN fireplaces!

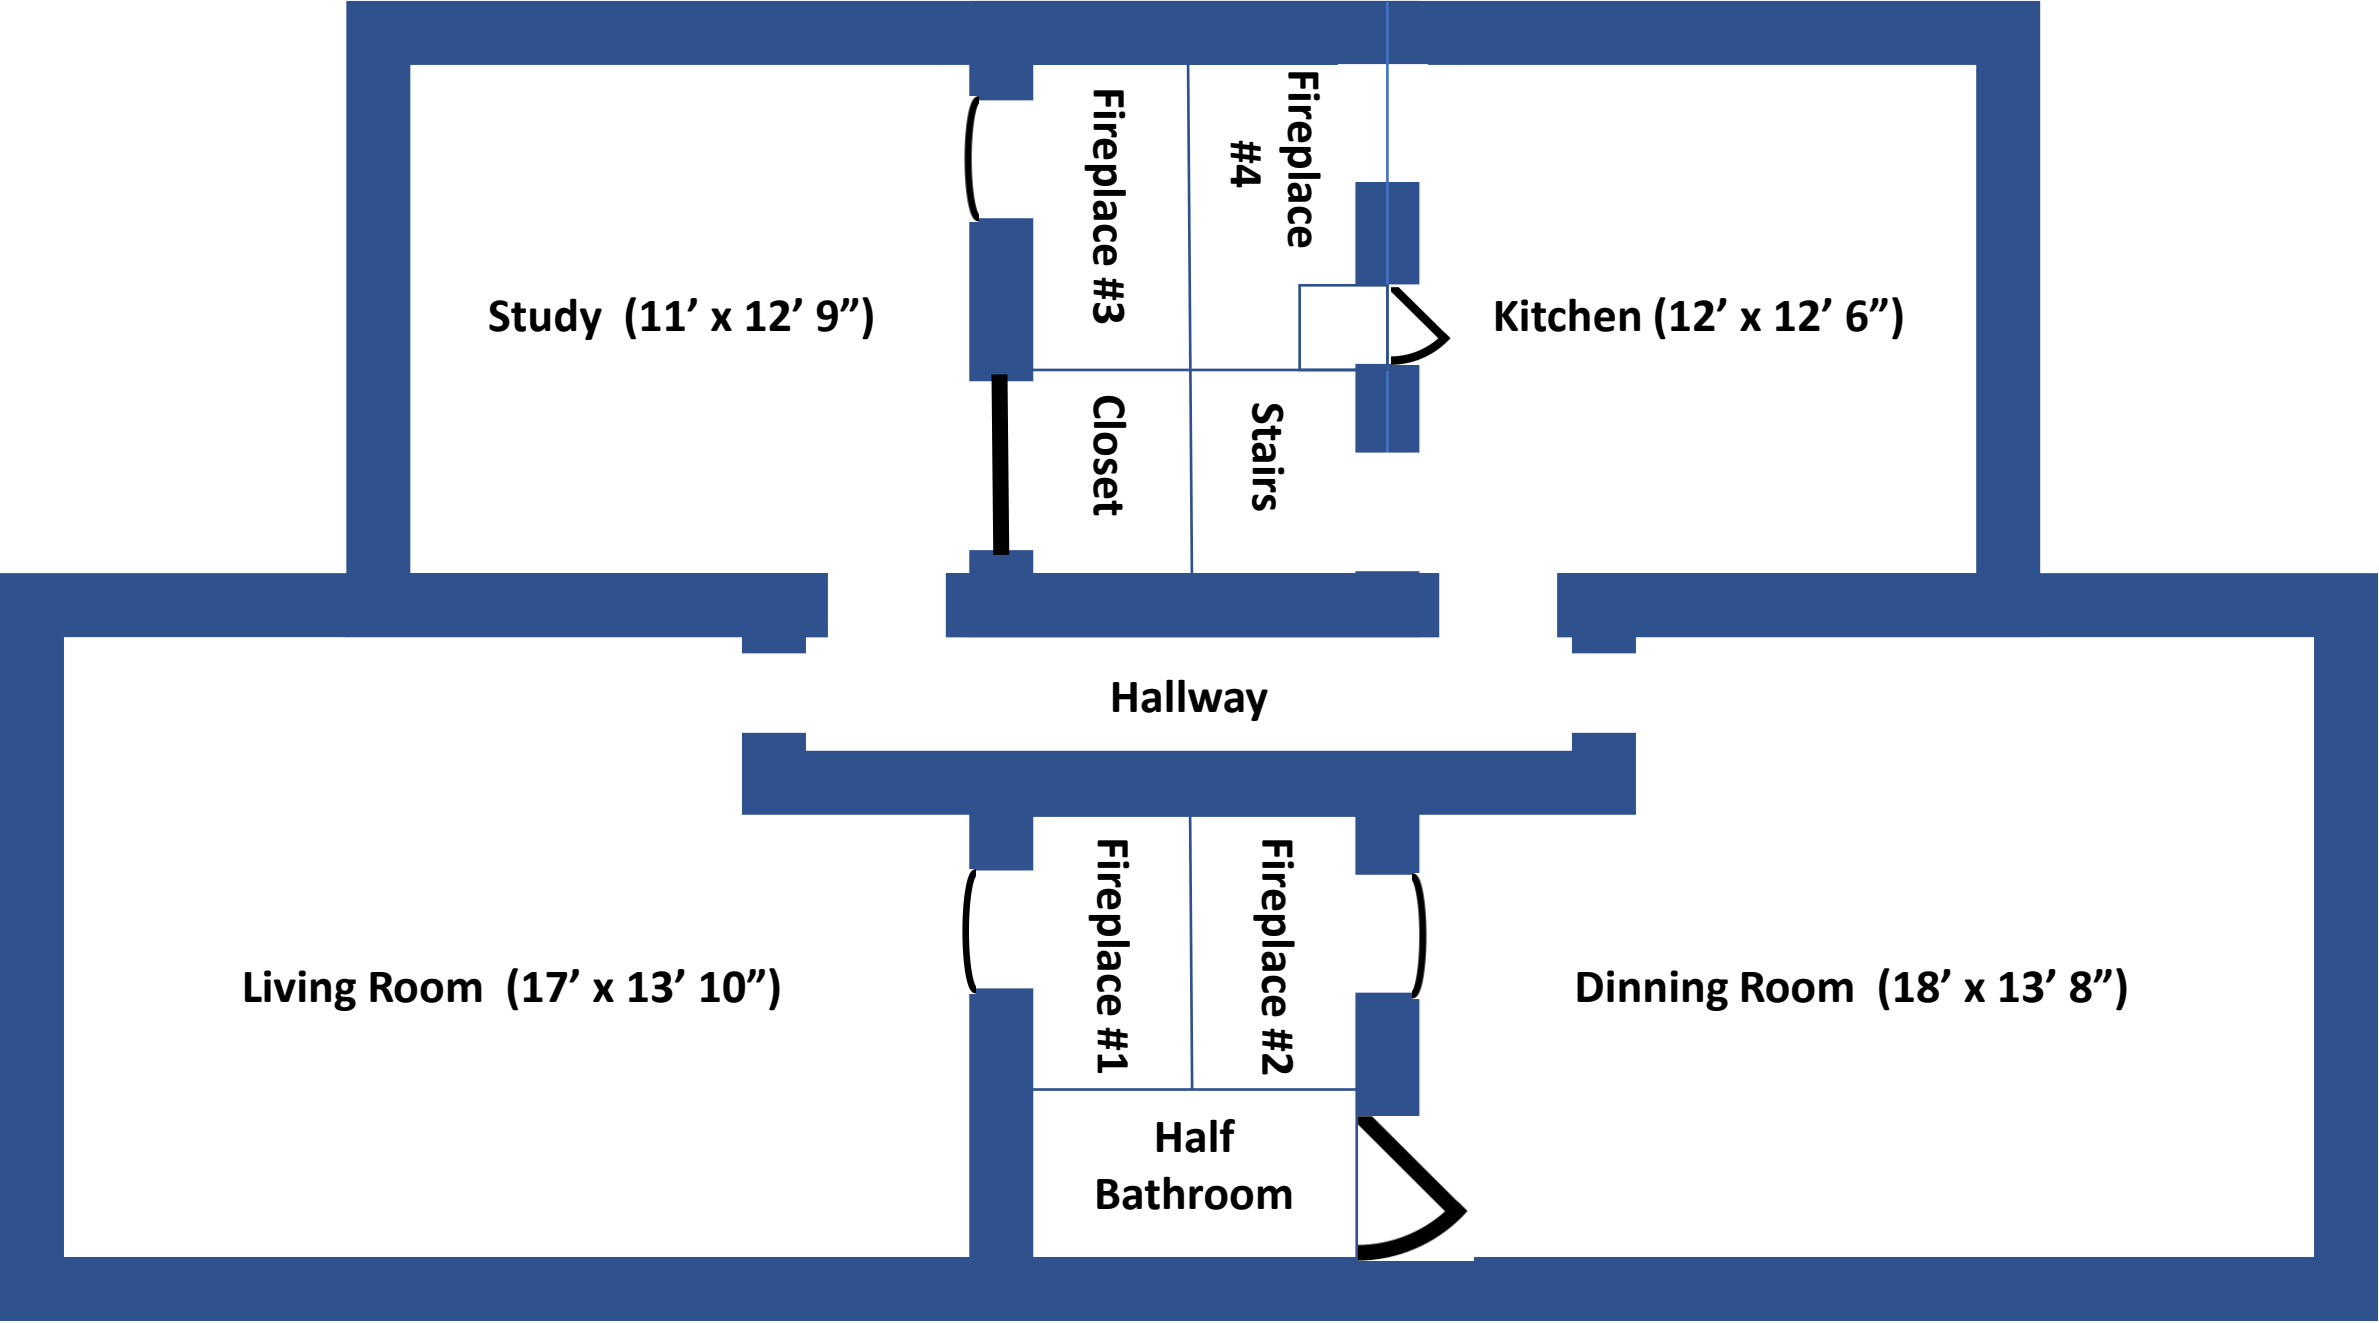

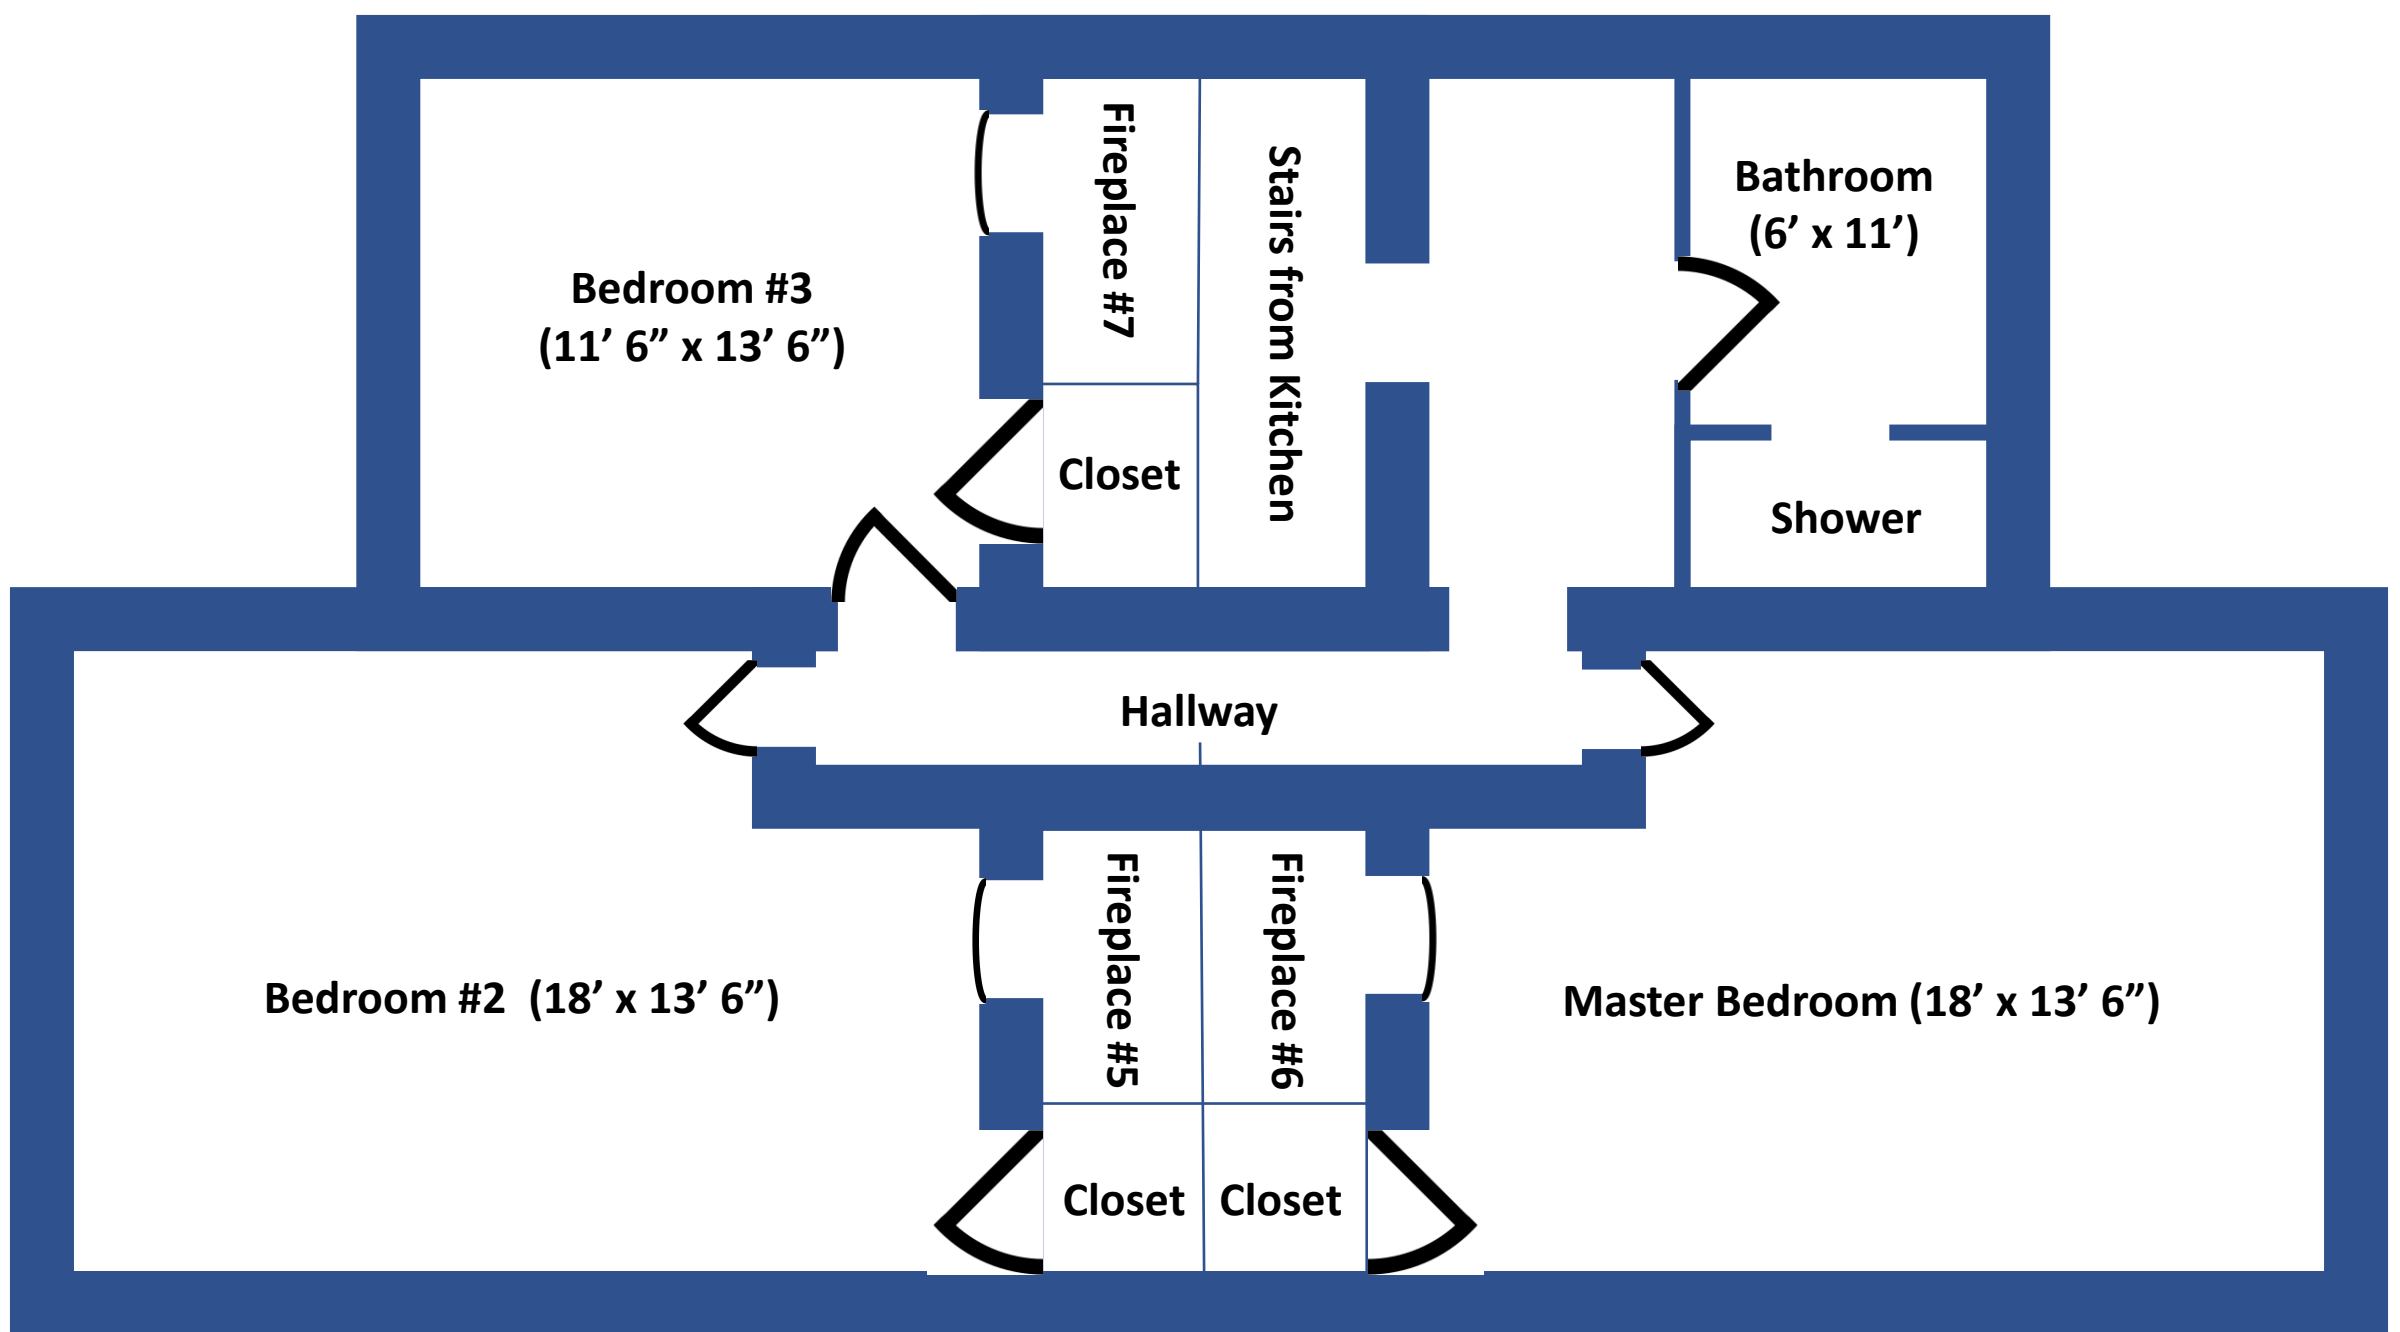

Located in Dickeyville in the City of Baltimore
